Narraweena Public School and its community aim to provide a quality learning environment which is inclusive, safe and secure and free from bullying, harassment and intimidation for all students.

To achieve this, our school maintains high standards of discipline and ensures all students and staff are treated fairly and with dignity and ensures our environment is free from disruption, intimidation, harassment and discrimination.

The aim of the partnership between our school and its community members is to develop socially responsible young people who are capable of making informed decisions. This is achieved through an effective social, cultural and academic curriculum which caters for the individual needs of students. These procedures are underpinned by DET (2002) Student welfare, good discipline and effective learning: Student welfare policy.

Managing Inappropriate Behaviours
At times students display inappropriate behaviours and don’t meet the school expectations. Students can be given a yellow card depending upon the behaviours displayed. The yellow card means time out with an executive to give the student time to reflect on their behaviour and write and discuss how they can make changes to better meet the school expectations. There may be occasions when certain behaviours would warrant parents/carers to be contacted to discuss student behaviour.

**INCIDENT FLOWCHART**

Students follow school expectations

Incident occurs

Minor Incident

Reflection sheet completed with Executive Teacher in reflection room.
Seeking assistance on the playground

All serious major behaviours on the playground which require assistance should be reported directly to the office via a walkie talkie that the supervising playground teacher should have in their bum bag. If a walkie talkie is unavailable then a messenger with a red card should be sent to the office.

Risk Assessment

Occasionally some students need individual programs specifically to decrease certain behaviours. Where appropriate the teacher, school counsellor, executive and principal set up an individual risk assessment for that student.
The risk assessment includes details of acceptable behaviour, strategies required and consequences for inappropriate behaviour. Parents are consulted and informed of strategies and consequences. The parents' support is needed for successful implementation. In some circumstances outside agencies may need to be accessed.

The student's behaviour is regularly monitored and the plan adjusted where necessary.

**Suspension**

In some cases of unacceptable behaviour, students will be suspended from school for a period of time or expelled. The principal will consider the safety, care and welfare of the student, staff and other students. A range of appropriate student welfare and discipline strategies should be implemented and documented before a suspension or expulsion is imposed. If major behaviours are consistently repeated the following suspension or expulsion procedures may need to take place.

**Suspension:**
Parents or carers will be contacted in regard to a student's unacceptable behaviour. A formal suspension letter will be issued.

The school will work collaboratively with the parents or caregivers to assist a suspended student to rejoin the school community as quickly as possible.

Suspension allows students time to reflect on their behaviour, to acknowledge and accept responsibility for the behaviour which led to the suspension and to accept responsibility for changing their behaviour to meet the school's expectations in the future. It also allows time for school personnel to plan appropriate support for the student to assist with successful re-entry.

Before a student re-enters the school community, a resolution meeting will be conducted with the principal, parents or care-givers and the student.

**Short Suspension:**
The principal may choose to impose a short suspension of up to and including four school days. Short suspensions may be imposed for the following reasons and will be reported in the following categories.

1. **Continued Disobedience.** This includes, but is not limited to, breaches of the school discipline code such as: refusal to obey staff instructions; defiance; disrupting other students; minor criminal behaviour related to the school; use of alcohol or persistent use of tobacco.

2. **Aggressive Behaviour.** This includes, but is not limited to: hostile behaviour directed towards students, members of staff or other persons, including verbal abuse and abuse transmitted electronically such as by email or SMS text messages.

**Long Suspension**
If short suspensions have not resolved the issue of inappropriate behaviour, or the misbehaviour is so serious as to warrant a long suspension, the principal may impose a long suspension of up to and including 20 school days. In determining if a student's behaviour is serious enough to warrant a long suspension the principal will consider:

- The safety of students and staff
- The merit and circumstances of the particular case

The principal will impose a long suspension for:

**Physical violence:** This results in pain or injury, or which seriously interferes with the safety and well being of other students and staff.

**Use or possession of a prohibited weapon, firearm or knife**
Possession or use of a suspected illegal substance: Not including alcohol or tobacco, but including supplying other students with illegal drugs or restricted substances such as prescription drugs.

Use of an implement as a weapon or threatening to use a weapon: This includes any item that is used as a weapon in a way which seriously interferes with the safety and well being of another person. This includes an offensive implement which is anything made, or adapted to cause injury to a person.

Serious criminal behaviour related to the school: Including malicious damage to property (school or community), or against the property or person of a fellow student or staff member on, or outside of the school premises. If the incident occurred outside the school or outside school hours, there must be a clear and close relationship between the incident and the school.

Persistent misbehaviour: Including repeated refusal to follow the school discipline code; making serious threats against students or staff; behaviour that deliberately and persistently interferes with the rights of other students to learn or teachers to teach.

Expulsion

In serious circumstances of misbehaviour the principal may expel a student of any age from the school.

When considering circumstances of expelling a student for misbehaviour, the principal will:

- Ensure, except as a result of a most serious incident, that all the appropriate student welfare and discipline strategies have been implemented and documented.
- Convene a formal disciplinary interview.
- Place the student on a long suspension pending the outcome of the decision making process.
- Notify the student and the parent(s) or carer(s), in writing, that expulsion from the school is being considered, giving reasons for the possible action.
